

Ashik M Asharaf

AI and Data Science MSc Graduate, University of Hull (Distinction)
Kochi, Kerala | +91 9747083777 | ashikmasharaf@outlook.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Summary

Data Analyst with an **MSc in Artificial Intelligence & Data Science (Distinction)** and experience delivering end-to-end analytics solutions across enterprise software, marketing, and operational domains. Skilled in **Python, SQL, Snowflake, Excel, and Power BI** to build **ETL pipelines**, automate reporting, develop interactive dashboards, and generate actionable business insights. Experienced in predictive analytics, **KPI** reporting, and stakeholder collaboration, with a strong focus on translating data into measurable business outcomes.

Professional Experience

Freelance Data Analyst (Project-Based) | Brand Nerd (Remote), Kochi, Kerala 02/2026 – Present

- Social Media Analytics:** Analysed Instagram and FB, identified content strategies boosting reach by **20% in 90 days**.
- Automation:** Built a Python/SQL pipeline to consolidate multi-channel data, reducing weekly reporting by **15 hours**.
- Retention Strategy:** Developed a loyalty dashboard to track engagement and identify at-risk users for client retention.
- A/B Testing:** Executed promotional campaign tests to optimise pricing and promotions strategies, protecting client margins.
- Built Power BI dashboards** to track engagement and performance metrics.

Data Analyst | RADD Solutions, Hull, UK 03/2025 – 03/2026

- Data Warehousing:** Developed SQL and Snowflake data models supporting enterprise reporting and analytics for client software solutions.
- Business Intelligence:** Built interactive Power BI dashboards to monitor operational KPIs, service performance, and metrics.
- ETL & Automation:** Designed Python and SQL ETL pipelines, improving data quality and reducing manual reporting effort.

Corporate Trainer | CFG, Manchester, UK 05/2024 – 03/2025

- Team Building:** Recruited and trained a high-performing sales team over 6 months; developed a data-backed sales pitch that increased lead conversion rates for British Gas.
- KPI Management:** Analysed team performance metrics to identify skill gaps, delivering targeted training that improved overall team efficiency.

Machine Learning Research Project Intern| RADD Solutions, Hull, UK 09/2023 – 04/2024

- Optimized AI Models & Efficiency Improvement:** Developed and fine-tuned email summarisation models (T5, BART, LongT5), achieving ROUGE scores up to **46.3**. Boosted data processing efficiency by **35%** and reduced computational requirements by **40%**.
- Data Analysis & Visualisation:** Analysed **2,000+** emails, created Power BI visualisations, enhancing stakeholder clarity.
- Dataset Enhancement:** Summarised **1,000** emails to create a high-quality dataset, increasing model accuracy by **40%**.
- Stakeholder Communication:** Presented findings driving strategic decisions within tight deadlines.

Technical Projects

- Customer Churn Prediction & Revenue Recovery Engine:** End-to-end ML pipeline on 7,043 telecom customers using K-Means segmentation, Gradient Boosting (**85.2% recall**), and Kaplan-Meier survival analysis. Quantified **₹4.25 lakh/month** simulated revenue at risk with a Power BI executive dashboard.
- Swiggy Hyperlocal Restaurant Success Predictor:** AI-driven market analytics on 8,000+ restaurants using K-Means and Multiple Linear Regression. Identified high-ROI entry localities and key success drivers via geospatial gap analysis.
- Cost-Benefit Analysis (HR Operations):** Designed Power BI dashboards using IBM HR Analytics data to visualise attrition risks, reducing report generation time by **30%**.

Technical Skills

- Programming & Databases:** Python, R, SQL, MySQL, PostgreSQL
- Data Visualisation:** Tableau, Power BI, Matplotlib, Seaborn, Plotly, Excel
- Statistical Analysis:** ANOVA, Regression (Linear, Logistic), Hypothesis Testing, A/B Testing, Multivariate Analysis
- Data Engineering:** ETL Processes, Data Modelling, Data Architecture, Data Quality Assurance, APIs, PySpark
- Cloud Platforms:** AWS (S3), Google Cloud Platform (BigQuery)
- Machine Learning:** TensorFlow, Keras, PyTorch, Scikit-Learn, XGBoost, LightGBM
- NLP:** NLTK, SpaCy, BERT, GPT, Transformer Models

Education

- MSc in Artificial Intelligence and Data Science (Distinction), University of Hull 01/2023 – 01/2024**
- BSc in Physics (First Class), Pondicherry University 06/2017 – 06/2021**

Certifications

- IBM Data Engineering Professional Certificate
- GDPR Compliance Training
- IELTS Academic, **Band: 7**
